

GROUND EQUIPMENT DECAL SET FOR USAF DASH 86 GROUND POWER UNIT (GPU)

1:144 SCALE = GED144014 - 1:72 SCALE = GED72014 - 1:48 SCALE = GED48014 - 1:32 SCALE = GED32014

The decals are laser printed on two sheets of waterslide paper.
One sheet has transparent carrier film and the other sheet has white carrier film

INSTRUCTIONS

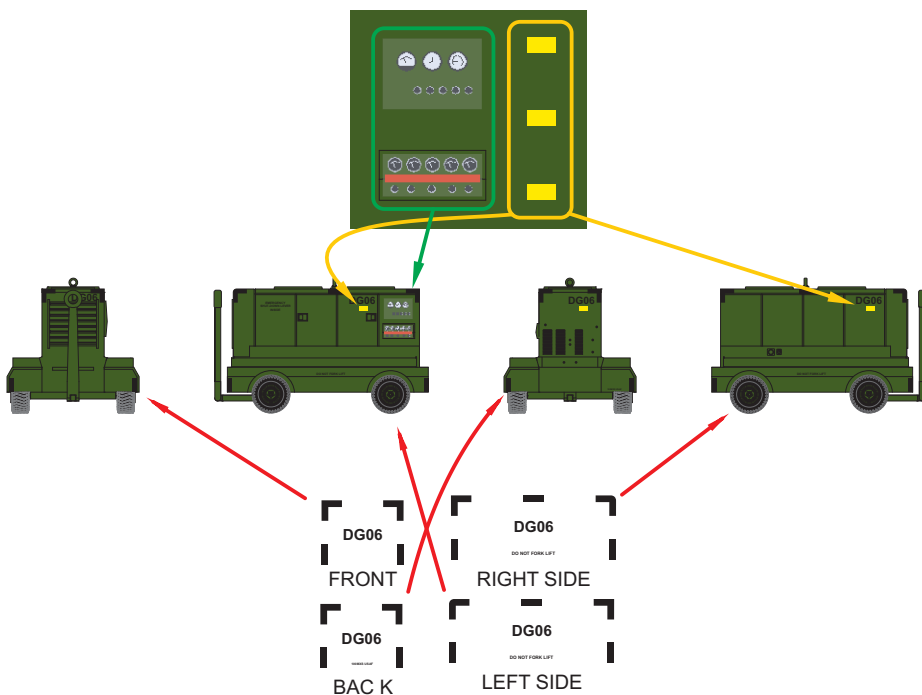

1 - Assemble and paint the model.

2 - Cut each decal from the sheet of waterslide paper. Trim the paper and thus carrier film to the edge of the decal, then soak the decal in warm water until the decal is released from the backing paper.

Note - there should be no dark green surround visible when the decal is removed from that sheet of paper.

3 - Apply each decal in the position shown in the diagrams below.

4 - Remove all excess water with the bristles of a paint brush, then leave the decals to dry thoroughly.
